

Accessibility Statement

Website Accessibility Statement

If you have difficulty using or accessing any element of this website or our mobile banking app, please call (570) 473-3531 or email us at NNBDepositServices@norrybank.com. We will work with you to provide the information or item(s) you seek through a communication method that is accessible for you.

We strive to make our technology accessible and continuously work and continuously work to further enhance the accessibility of our website. You may consider using assistive technologies like a screen reader, a magnifier, voice recognition software, or switch technology, for a more successful and enjoyable experience.

We recommend using the most current versions of the computer-based assistive technology applications and browsers. There are easy-to-use controls for adjusting the size and colors of content on a web page. There is not one size or color combinations for all users. By using the controls provided by your browser, you can personalize the content presentation to suit your needs. Keeping your browsers up-to-date will ensure that you have the most options for accessibility. The most up to date browsers will provide more display options to make content more accessible, and may work better with assistive technologies.

We do not provide assistive technology applications or browsers. Please visit the individual manufacturer site for information about how to obtain them. You also may have access to assistance from local and state agencies or non-profit groups in your area.

The Northumberland National Bank wants to provide a positive experience for all users of our technology, and we aim to promote accessibility. We use a variety of tools and resources to measure our website against the Web Content Accessibility Guidelines (WCAG) standards. We continue to enhance our website and accessibility.

We appreciate any feedback, please contact us with any feedback or suggestions as to how we could improve the accessibility of this website or our other technology.
